

Wycombe 0 St. Albans 0

FOR WYCOMBE, this was to have been the accent on attack in a new 4-3-3 formation, but after eight goals against Corinthian Casuals a few days before they were badly off the mark in this game. Both Wycombe strikers, Samuels and Horseman, fluffed good chances and those shots that were on the mark were dealt with capably by City keeper Whitaker, who was injured making one daring save at the feet of Horseman. Childs and Butterfield tried to get the St. Albans' attack moving, but they too were frustrated by quick tackling in the middle.

The likeliest effort came from a St. Albans' forward, Ratty, who almost found the mark with a tremendous shot which Maskell did well to save.
